

SCC #5- Change to MIL-STD-2045-47001B
Approved 23Jul98

5.6.2 Data Compression Type. The *absence of this field signifies data compression is not used. When present, this* field shall be a 2-bit binary codeword representing whether the ~~data~~*message or messages contained in the User Data* portion of the ~~message has been~~ ~~Unix~~*Application protocol data unit (PDU) have been UNIX* compressed (LZW algorithm) or compressed using the LZ-77 compression algorithm. Table III lists the Data Compression algorithm indicated by the Data Compression Type. *When any type of optional data compression is indicated and multiple messages are present in the User Data portion of the Application PDU, all messages shall be compressed and each message shall be compressed independently of the other messages.*
